

Defence and Security Doctoral Symposium

13 - 14 November 2024

In association with

Defence and Security Doctoral Symposium

Showcase your work - our online open access repository tracks the impact of your research through views, citations and downloads.

What is this event about?

Plans are well underway for the 10th anniversary of DSDS24, which will again be held at STEAM, the Museum of the Great Western Railway in Swindon.

- Please spread the word to your personal and professional networks and on social media.
- This is the only event in the UK that gives defence and security research students and Early Career Researchers an opportunity to showcase their work to a sector-wide audience
- Hosted by Cranfield University and sponsored by Dstl and AWE
- Covering science, technology, engineering and the social sciences in the defence and security sectors

Who should attend?

- Researchers and research students working on defence and security matters
- Early Career Researchers
- Academic supervisors
- Representatives from industry, government and other defence and security relevant NGOs

Why should you attend?

- Learn about cutting-edge research in defence and security
- Hear about key issues being investigated across science, technology, engineering and social science research in the defence and security sectors
- Network with fellow students, representatives from the sponsoring organisations, defence publishers and others during the day and at an evening drinks reception
- Listen to keynote speakers covering key policy-drivers in defence and security
- Engage with defence and security employers
- Discover funding and development opportunities in the defence and security sector

What to expect?

- Keynote Speakers
- Research Papers
- 3MT (3 Minute Thesis)
- Poster Competition
- Digital Image Competition
- 3D Installation

Date

13 - 14 November 2024

Call for Contributions

To contribute a 15 minute research paper or 3MT, you need to be in the second half of your research registration or an Early Career Researcher. Posters, Digital Images and 3D installation competitions are open to all research students and ECRs.
