Notes applicable to this document

- The fees outlined here apply to all students whose initial date of registration falls on or between 1 October 2009 and 30 September 2010. Unless otherwise stated, the fees stated are the total fee for the duration of the course (p.a. means a fee payable for each year of the duration of the course).
- Fee eligibility at the Home/EU rate is determined with reference to UK Government regulations. As a guiding principle, EU nationals (including UK) who are ordinarily resident in the EU pay Home/EU tuition fees: all other students (including those from the Channel Islands and the Isle of Man) pay international rates. Students should apply to Registry for further advice.
- Where annual (p.a.) fees are quoted, full-time students paying Home/EU shall be required to pay the annual fee as set out from time to time by the University: part-time students paying Home/EU fees and all students paying international rates will be charged the annual fees outlined above for the usual duration of their initial registration: the University reserves the right to increase the fee levels in cases where students extend their studies beyond their initial period of registration.
- Fees for 2010-11 will be announced no later than 30 April 2010.
- All fees are payable only in £ sterling. Where a course of study is no more than twelve months in duration, the tuition fee shall be paid in full on or before the initial date of registration. For all other courses of study, fees covering a year of study are payable on the initial date of registration, with an annual fee then payable on or before each anniversary of the date of initial registration.
