Monday 28 September
Aerospace Computational Engineering
Computational Fluid Dynamics
Computational and Software Techniques in Engineering
Finance and Management
Investment Management
Logistics and Supply Chain Management
Management
Management and Corporate Sustainability
Management and Entrepreneurship
Management HRM
Procurement and Supply Chain Management
Research Students (PhD and MSc by Research)
Strategic Marketing

Tuesday 29 September
Advanced Chemical Engineering
Advanced Materials
Advanced Mechanical Engineering
Advanced Motorsport Engineering
Advanced Motorsport Mechatronics
Aerospace Manufacturing
Aerospace Materials
Air Transport Management
Airport Planning and Management
Applied Bioinformatics
Automotive Engineering
Automotive Mechatronics
Connected and Autonomous Vehicle Engineering (Automotive)
Cyber Secure Manufacturing
Design Thinking
Energy Systems and Thermal Processes
Engineering and Management of Manufacturing Systems
Environmental Engineering
Environmental Management for Business
Environmental Water Management
Food Systems & Management
Future Food Sustainability
Geographical Information Management
Geothermal Engineering
Global Product Development and Management
Maintenance Engineering and Asset Management
Management and Information Systems
Manufacturing Technology Management
MBA (FT and Energy)
Metal Additive Manufacturing
Offshore Engineering
Process Systems Engineering
Renewable Energy
Safety and Human Factors in Aviation
Water and Sanitation for Development
Water and Wastewater Engineering
Welding Engineering
Wednesday 30 September
Advanced Lightweight and Composite Structures
Aerospace Dynamics
Aerospace Vehicle Design
Applied Artificial Intelligence
Astronautics and Space Engineering
Autonomous Vehicle Dynamics and Control
Counterterrorism
Counterterrorism, Risk Management and Resilience
Forensic Archaeology and Anthropology
Forensic Ballistics
Forensic Explosive and Explosion Investigation
Forensic Investigation
Forensic Investigation of Heritage Crime
Pre Masters
Robotics
Thermal Power
