

Keeping yourself and others safe while visiting our site

September 2021

Information for contractors and visitors

The health, safety and wellbeing of our staff, students and visitors are our top priority.

When on site, please follow these simple guidelines, together with any additional ones that your employer requires of you. If you have any questions, please raise these with your host.

Letting us know if you are unwell or a 'household contact'

If you have Coronavirus symptoms, test positive, or a member of your household tests positive, you must not come onto our site for 10 days, even if you have been double vaccinated.

Social distancing and face coverings

You should maintain social distance wherever possible. If you are not able to maintain a one-metre distance from others when inside on our site, then a face covering must be worn, unless you are exempt or eating or drinking.

Hand hygiene

Please maintain good hand hygiene using the facilities available on site.

Testing

We expect all our visitors and contractors to have a negative lateral flow test before attending our sites.

Cleaning

Where appropriate, you must ensure that you clean your workspace thoroughly with the cleaning materials and blue paper roll provided, before you start any activity and once you have finished.

Thank you for following this guidance and helping to keep us all safe.
