

Logistics and Supply Chain Management (Executive)

MSc/PgDip/PgCert

Our part-time Logistics and Supply Chain Management MSc (Executive) meets the requirements of the Level 7 Senior Leaders Master's Degree Apprenticeship Standard. Eligible organisations will be able to use £18,000 of their Apprenticeship Levy to cover the cost of the course tuition fees. Our part-time course offers the opportunity to study for an internationally recognised master's qualification whilst bringing the latest academic insights and industry best practice back to your own organisation. It has been co-designed with senior supply chain practitioners and is delivered by one of Europe's largest specialist logistics and supply chain management faculty.

The course is designed for experienced business logistics, supply chain or procurement managers who want to enhance their skills, knowledge and confidence to take on more demanding executive roles in the future, and want a "real-world" education delivered by faculty who are actively engaged with business.

Teaching at Cranfield is designed to nurture your practical business skills and confidence. This course will raise your awareness and appreciation of advanced logistics and supply chain practices and develop your ability to critically select the tools and techniques that are most relevant to you.

Cranfield School of Management was voted 1st outside the US and 11th globally in the Supply Chain Management World 'University 100' annual survey 2016.

Course structure

The course comprises of thirteen intensive modules delivered over eight weeks, and includes an optional international study tour. The thirteen modules are delivered at Cranfield with remote study in between.

Individual thesis project

The individual thesis project provides you with an opportunity to investigate an area of particular interest to you and your organisation.

Future career

The programme is designed for experienced professionals working in logistics and supply chain management. It will help you to progress your career in the field by teaching you how best to provide effective leadership throughout the logistics and supply chain lifecycle, ensuring you feel confident to take on more senior roles and more challenging projects.

Duration:

MSc: Part-time - two years; PgDip: Part-time - two years; PgCert: Part-time - two years

Start date:

February 2020,
October 2020.

Location:

Cranfield Campus.

Delivery:

Taught modules 65%; individual thesis project 35%

Entry requirements:

We welcome applications from talented candidates of all backgrounds and a degree is not always necessary. Each application is considered on its individual merit, taking into account both qualifications and work experience. Usually candidates must have two years' work experience and hold either a first or a second class UK honours degree in a relevant discipline, or international relevant degree - equivalent of UK qualifications.

Candidates who do not meet these criteria may be considered if they have a professional qualification together with five years' post-qualification relevant work experience. Other relevant qualifications, together with significant experience, may be considered.
