

Logistics and Supply Chain Management

MSc

Cranfield School of Management has been teaching master's in Logistics for more than thirty-five years, and has developed an excellent reputation for teaching and research in this field. We work with industry partners and monitor changing trends to ensure you have the latest skills and knowledge to prepare you for an exciting career in supply chain management.

Our Logistics and Supply Chain Management MSc will provide you with the specialist knowledge and skills that you need to further your career as a logistics and supply chain practitioner. It has been co-designed with senior logistics and supply chain professionals for both recent graduates, who want a broad understanding of this area and wish to prepare for their future career, and supply chain professionals in the early stages of their career seeking to move to the next level professionally.

Many of our faculty are leading experts with international reputations for teaching and have held senior positions in multinational organisations. Teaching at Cranfield is designed to nurture your practical business skills and confidence, and places huge emphasis on real-world challenges.

Cranfield School of Management is a leading European business school, ranked 6th in the UK and 17th in Europe in the Financial Times European Business Schools 2018 ranking.

Course structure

The course comprises ten core and four elective modules. This enables you to tailor the course to suit your personal career plan. You also have the opportunity to attend a study tour.

Study tour

The study tour is a unique opportunity to experience a supply chain perspective in a different economic region in Europe. You will gain first-hand experience of how supply strategies in the region are influenced by different pressures, and you will gain a rich understanding of the differences between supply chain practices. The tour normally takes place over three to four days. The study tour is subject to additional costs.

Individual project

You will either undertake an empirical research project for your individual thesis, or you may have the opportunity to work on a project in collaboration with one of our industrial partners. Both pathways enable you to apply and extend the knowledge and skills you have learnt during the course and the choice of projects cover a broad range of subject areas.

Future career

95% of School of Management students were employed within three months of graduation*

The Cranfield Career Development Service offers a comprehensive service to help you develop a set of career management skills that will remain with you throughout your career. During your course you will receive support and guidance to help you plan an effective strategy for your personal and professional development.

Our graduates are highly valued in the job market. Companies that have recruited graduates from this course into logistics and supply chain management roles include: Amazon, British American Tobacco, DHL, Diageo, Kuehne + Nagel, Nestle, Nike, Proctor & Gamble, Shell, Sony UK, Unilever.

*based on data we hold from our latest School of Management Employability Survey.

Entry requirements:

We welcome applications from talented candidates of all backgrounds and each application is considered on its individual merit. Usually candidates must hold either a first or a second class UK honours degree in a relevant discipline, or an international degree - equivalent of UK qualifications. Candidates who do not meet these criteria may be considered if they have a professional qualification together with five years' post-qualification relevant work experience. Other relevant qualifications, together with significant experience, may be considered.

If you are currently studying at a Chinese university, please view our specific entry requirements for further study at Cranfield School of Management at: www.cranfield.ac.uk/about/international-students/a-to-z-of-countries/china.
