

Revolutionizing Energy Systems: AI and Blockchain

30 January 2020

Dhara Vyas
Head of Future Energy Services

Dhara leads Citizens Advice work on new energy supply, products and services. The team works on consumer policy related to household energy usage data, smart meters, micro-generation, community energy and future heat, with a focus on improving energy efficiency and consumer control.

Dhara has a background in social and consumer policy, and has worked for the energy consumer watchdog since 2009.
