

# National Manufacturing Debate

23 May 2018

**Andrew Schofield**  
Head of Manufacturing & Materials Engineering  
BAE Systems

Andy Schofield is the Head of Manufacturing & Materials Engineering in the Air Sector business within BAE Systems. He has over 38 years of experience in the aerospace industry and is currently responsible for the development, deployment and subsequent governance of all engineering processes, technology and capabilities used across a variety of military aircraft products. He has experience of the full lifecycle of the aircraft products ranging from conceptual studies for future aircraft projects through to providing support to aircraft in operational service. Andy also sits on a number of advisory groups in the UK and represents BAE Systems on the programme boards of a number of High Value Manufacturing Catapult Technology Centres in the UK. He is member of the Institute of Materials, Minerals and Mining and a Chartered Engineer.
