

National Manufacturing Debate

21 May 2019

Dr Hannah Edmonds
Technical Specialist – Digital Engineering

Dr Hannah Edmonds has worked at the Manufacturing Technology Centre (MTC), part of the High Value Manufacturing Catapult, since 2012. She is a Technical Specialist in Digital Engineering and leads the Thermal Energy Research Accelerator (T-ERA) project for 'Factory In A Box' (FIAB) Manufacture at MTC. At the start of the project, Dr Edmonds engaged with a number of thermal energy start-ups / SMEs to identify the technical and commercial feasibility of FIAB manufacture for their products; understanding their manufacturing challenges and the potential benefits of deployed manufacturing for their business.

Dr Edmonds also leads the MTC's Smart Manufacturing Accelerator (SMA), a service for delivering integrated manufacturing and supply chain solutions enabled by industrial digital technologies. The SMA uses the capabilities and digital tools developed within the T-ERA project at MTC to deliver impact for industrial customers.
