

# 11<sup>th</sup> International Conference on Through-life Engineering services (TESConf 2022)

8 - 9 November 2022

## **Steve Gregson**

**Engineering Fellow – Service System Solutions**  
**BEng CEng FIMechE FIAM**  
**Rolls-Royce**

Steve is the Rolls-Royce Engineering Fellow supporting Services across the Civil Aerospace, Defence Aerospace & Power Systems businesses. He is the Industrial Co-chair of the UK Through Life Engineering Services Council. He is a Fellow of both the IMechE and Institute of Asset Management. Steve is an effective collaborator and “big picture” systems thinker with many years of global transformation experience.

Steve will talk about the delivery of value driven, digitally enabled Through Life Engineering Services capabilities and share important insights from the real-world implementation of these strategies. He will also talk about the UK TES Council and its work to create the environment in which TES flourishes and becomes the dominant business model for high value, complex equipment.
