# Soil-Related Bibliography and References

Copyright © Cranfield University, 2018

This reading list presents a series of selected soil-related references from staff of the Centre for Environmental and Agricultural Informatics, Cranfield University. These papers, books and reports have been selected as useful literature for users keen to develop their understanding of soil, soil processes and soil information systems, particularly with a UK focus.

For more information on Soil Site Reports, please visit our website at [www.landis.org.uk](http://www.landis.org.uk).
