

# Tuition fees

## Taught courses

2017-2018

### Important notes about fees

The fees outlined within this document apply to all students whose initial date of registration falls on or between 1 August 2017 and 31 July 2018. All students pay the tuition fee set by the University for the full duration of their registration period agreed at their initial registration.

Fee eligibility at the Home/EU rate is determined with reference to UK Government regulations. As a guiding principle, EU nationals (including UK) who are ordinarily resident in the EU pay Home/EU tuition fees, all other students (including those from the Channel Islands and Isle of Man) pay Overseas fees.

A deposit may be payable for some courses and will be offset against the tuition fee. Additional fees for extensions to the agreed registration period may be charged.
